SUBJECT INDEX

A

Abdominal aorta, embolism and thrombosis of, ix, 5.
 Aneurysm, arteriovenous, xii, 12.
 Aneurysm of aorta, dissecting, ix, 4.
 Aneurysm of pulmonary artery, x, 2.
 Angina pectoris: intercoronary collateral circulation in, x, 6.
 Aorta, abdominal, embolism and thrombosis of, ix, 5.
 Aorta, dissecting aneurysm of, ix, 4.
 Arterial pressure, sudden fall, as factor in coronary thrombosis, xi, 2.
 Arteriosclerosis, with special reference to coronary sclerosis, xi, 10, 11.
 Arteriovenous aneurysm, xii, 12.
 Auriculo-ventricular conduction time of normal and rheumatic children, x, 5.
 Aviation and cardiovascular system, xii, 2.

B

Bacterial endocarditis, ix, 7.
 Blood flow, measurement of velocity of, xi, 1.

C

Cardiac decompensation, physiological studies in, ix, 11, 12.
 Cardiac disease, rheumatic, natural history of, xi, 7.
 Cardiac surgery; ECG observations in, ix, 1.
 Cardiovascular syphilis, diagnosis and treatment of, xi, 12, xii, 1.
 Cardiovascular system and aviation, xii, 2.
 Children, A-V conduction time in (normal and rheumatic), x, 5.
 Circulation, relation of endocrines to, x, 9.
 Claudication, intermittent, xii, 11.
 Congenital heart disease in childhood, prognosis, x, 1.
 Convalescent care in rheumatic fever, xii, 5.
 Coronary artery disease, nomenclature in, x, 11.
 Coronary disease with normal electrocardiograms, x, 10.
 Coronary failure, intercoronary collateral circulation in, x, 6.
 Coronary occlusion, prognosis of, xi, 5, 6.
 Coronary sclerosis, xi, 10, 11.
 Coronary thrombosis, precipitated by sudden fall in arterial pressure, xi, 2.

D

Da Costa's syndrome, xi, 8.
 Decompensation, cardiac, significance of physiological studies in, ix, 11, 12.
 Digitalis, recent developments in, xi, 4.
 Dissecting aneurysm of aorta, ix, 4.
 Ductus arteriosus, patent, surgical closure of, x, 12.
 Dysphagia with disorders of heart and great vessels, x, 8.

E

Edema, treatment of, x, 3.
 Effort syndrome, xi, 8.

Electrocardiograms, normal, in presence of coronary disease, x, 10.
 Electrocardiographic observations in cardiac surgery, ix, 1.
 Embolism of abdominal aorta, ix, 5.
 Endocarditis, subacute bacterial, ix, 7.
 Endocrines, relation of to circulation, x, 9.
 Enlargements of heart in infants and young children, ix, 10.
 Essential hypertension, xii, 8, 9.
 Essential hypertension—course and prognosis of different types, ix, 3.

F

Failure, left ventricular, x, 7.
 Fall, sudden, in arterial pressure as factor in acute coronary thrombosis, xi, 2.

G

Great vessels, dysphagia caused by disorders of, x, 8.

H

Heart and kidneys, relation between, ix, 6.
 Heart disease and trauma, xi, 3.
 Heart disease, congenital; prognosis of, x, 1.
 Heart, enlargement of in infants and young children, ix, 10.
 Heart failure, left ventricular, x, 7.
 Heart size in relation to prognosis, xii, 3.
 Hypertension, essential, xii, 8, 9.
 Hypertension, essential; course and prognosis of, ix, 3.

I

Infants, enlargement of heart in, ix, 10.
 Intermittent claudication, xii, 11.
 Intravenous solutions, effects of, x, 4.
 Irritable heart of soldiers, xi, 8.

K

Kidneys and heart, relation between, ix, 6.

L

Left ventricular heart failure, x, 7.

M

Measurement of velocity of blood flow, xi, 1.
 Myocardial infarction, intercoronary collateral circulation in, x, 6.
 Myocardial infarction precipitated by sudden fall in arterial pressure, xi, 2.

SUBJECT INDEX

N

Natural history of rheumatic cardiac disease, xi, 7.
 Neurocirculatory asthenia, xi, 8.
 Nomenclature in coronary artery disease, x, 11.
 Normal electrocardiograms in presence of coronary disease, x, 10.

P

Patent ductus arteriosus, surgical closure of, x, 12.
 Pericardium, traumatic rupture of, ix, 2.
 Physiological studies in cardiac decompensation, clinical significance of, ix, 11, 12.
 Precordial leads, multiple, ventricular complex in, xii, 6, 7.
 Prevention of streptococcal infections and rheumatic recurrences by sulfanilamide, xii, 10.
 Prognosis and heart size, xii, 3.
 Prognosis of congenital heart disease in childhood, x, 1.
 Prognosis of coronary occlusion, xi, 5, 6.
 Pulmonary artery, aneurysm of, x, 2.
 Pulmonocardiac failure, ix, 9.

R

Recent developments in digitalis, xi, 4.
 Rheumatic cardiac disease, natural history of, xi, 7.
 Rheumatic children, A-V conduction time in, x, 5.
 Rheumatic fever, convalescent care in, xii, 5.

Rheumatic recurrences, prevention of by sulfanilamide, xii, 10.
 Rupture of pericardium, traumatic, ix, 2.

S

Shock, xi, 9.
 Solutions, intravenous, effects of, x, 4.
 Streptococcal infections, prevention of by sulfanilamide, xii, 10.
 Sulfanilamide in prevention of streptococcal infections and rheumatic recurrences, xii, 10.
 Surgery, cardiac, ECG observations in, ix, 1.
 Surgical closure of patent ductus arteriosus, x, 12.
 Syphilis, cardiovascular, diagnosis and treatment of, xi, 12; xii, 1.

T

Tachycardia; its treatment, ix, 8.
 Thrombosis, xii, 2.
 Thrombosis of abdominal aorta, ix, 5.
 Trauma and heart disease, xi, 3.
 Traumatic rupture of pericardium, ix, 2.
 Treatment of edema, x, 3.

V

Velocity of blood flow, measurement of, xi, 1.
 Ventricular complex in multiple precordial leads, xii, 6, 7.
